

# Hotspots Reports

## Overview

The Hotspots Reports section provides comprehensive analytics for Access Points (AP) and their locations across different geographical hierarchies. These reports enable you to monitor and analyze hotspot distribution and performance metrics over time.

## Available Reports

### Access Points Reports

Track Access Point distribution and trends across various geographical levels:

Report Name	Description	Group
Access Points by country and state	AP by country and state over time	Hotspot
Access Points by country and city	AP by country and city over time	Hotspot
Access Points by country and municipality	AP by country and municipality over time	Hotspot
Access Points by country and region	AP by country and region over time	Hotspot

### Location Reports

Analyze Access Point locations and their geographical distribution:

Report Name	Description	Group
Locations by country and state	AP locations by country and state over time	Hotspot
Locations by country and city	AP locations by country and city over time	Hotspot
Locations by country and municipality	AP locations by country and municipality over time	Hotspot

Report Name	Description	Group
Locations by country and region	AP locations by country and region over time	Hotspot

# Report Categories

All hotspot reports are organized within the **Hotspot** group for easy navigation and management within the GATE portal interface.
