

Report Name Reference

Overview

The GATE portal has implemented a comprehensive report naming update to improve clarity and organization. All reports are now grouped by function and feature standardized naming conventions for better usability.

This reference list provides the equivalent name for each report and includes a glossary of terms to help you understand the new naming structure.

Report Categories

Reports are organized into the following functional groups:

- **Portal Events** - User authentication, transactions, and portal activity
- **Hotspot** - Access Point location and geographic data
- **Authentication** - AAA authentication requests and responses
- **Accounting** - AAA session tracking and bandwidth usage
- **AD Events** - Advertising campaign performance and user interactions

USERS Reports

All user-related reports are categorized under **Portal Events**.

Previous Report Name	New Report Name	Group
Active Access Point MAC addresses	Active AP address trend	Portal Events
Active Access Point MAC addresses from successful login transactions	AP address trend with Log in	Portal Events
Active Access Point MAC addresses per Organization	Active AP address trend, by organization	Portal Events
Active Access Point MAC addresses without matching Access Point	Active AP address trend without AP	Portal Events

Previous Report Name	New Report Name	Group
Detailed user login transactions report ES: Reporte detallado de transacciones de login de usuario	User Log in detail over time	Portal Events
Detailed user transactions report ES: Reporte detallado de transacciones de usuario	User transactions detail over time	Portal Events
Error user transactions by status and error message ES: Transacciones de usuario con error por estado y mensaje de error	Transaction error message trend, by status	Portal Events
Error user transactions by status, error message and page ES: Transacciones de usuario con error por estado, mensaje de error y página	Transaction error message trend, by status and page	Portal Events
Error user transactions by type ES: Transacciones de usuario con error por tipo	Transaction error type trend	Portal Events
Error user transactions by type and location ES: Transacciones de usuario con error por tipo y localidad	Transaction error type trend, by location	Portal Events
Error user transactions by type and location group ES: Transacciones de usuario con error por tipo y grupo de localidades	Transaction error type trend, by location group	Portal Events
Error user transactions by type and page ES: Transacciones de usuario con error por tipo y página	Transaction error type trend, by page	Portal Events
Error user transactions by type and service ES: Transacciones de usuario con error por tipo y servicio	Transaction error type trend, by service	Portal Events
Error user transactions by type, service and page ES: Transacciones de usuario con error por tipo, servicio y página	Transaction error type trend, by service and page	Portal Events
List of active Access Point MAC addresses	Transactions by AP address over time	Portal Events
Number of distinct MAC addresses with connections ES: Usuario Top con conexiones	AP address ID connections trend	Portal Events
Number of distinct MAC addresses with connections average by organization	AP address ID connections, by organization over time	Portal Events

Previous Report Name	New Report Name	Group
Number of distinct MAC addresses with connections by organization	AP address ID connections trend, by organization	Portal Events
Number of distinct user classes with connections	User classes with connections trend	Portal Events
Number of distinct user external IDs with connections	External user ID with connections trend	Portal Events
Number of distinct usernames with connections ES: Número de usuarios distintos con conexiones	User connections trend	Portal Events
Number of distinct usernames with connections by page ES: Número de usuarios distintos con conexiones por página	User connections trend, by page	Portal Events
Number of distinct usernames with connections per device type	User device trend	Portal Events
Number of new, existing and total users with connections ES: Número de usuarios nuevos, existentes y totales con conexiones	User trend, by new/existing	Portal Events
Number of new, existing and total users with connections by AAA profile ES: Número de usuarios nuevos, existentes y totales con con conexiones por perfil AAA	User trend, by new/existing and AAA profile	Portal Events
Number of new, existing and total users with connections by Access Point group	User trend, by new/existing and AP group	Portal Events
Number of new, existing and total users with connections by Location ES: Número de usuarios nuevos, existentes y totales con conexiones por localidad	User trend, by new/existing and Location	Portal Events
Number of new, existing and total users with connections by Location group ES: Número de usuarios nuevos, existentes y totales con conexiones por grupo de localidades	User trend, by new/existing and Location group	Portal Events
Number of users with connections ES: Número de usuarios con conexiones	Session trend	Portal Events
Number of users with connections by AAA profile ES: Número de usuarios con conexiones por perfil AAA	Session trend, by AAA profile	Portal Events

Previous Report Name	New Report Name	Group
Number of users with connections by Location ES: Número de usuarios con conexiones por localidad	Session trend, by Location	Portal Events
Number of users with connections by Location group ES: Número de usuarios con conexiones por grupo de localidades	Session trend, by Location group	Portal Events
Number of users with connections per device type	Session trend, by device type	Portal Events
Successful user captures by service ES: Capturas de usuario exitosas por servicio	User capture trend, by service	Portal Events
Successful user login transaction rate per Access Point group and number of Access Points	Average log in trend, by Access Point group	Portal Events
Successful user login transactions ES: Inicio de sesión de usuario exitosa	Log in trend	Portal Events
Successful user login transactions average by organization	Average log in by organization over time	Portal Events
Successful user login transactions by Access Point ES: Inicio de sesión de usuario exitoso por access point	Log in trend, by Access Point	Portal Events
Successful user login transactions by Access Point installation type	Log in trend, by Indoor/Outdoor AP	Portal Events
Successful user login transactions by Access Point installation type and page	Log in trend, by Indoor/Outdoor AP and page	Portal Events
Successful user login transactions by Location ES: Inicio de sesión de usuario exitoso por localidad	Log in trend, by location	Portal Events
Successful user login transactions by Location group ES: Inicio de sesión de usuario exitoso por grupo de localidades	Log in trend, by location group	Portal Events
Successful user login transactions by Location group and state	Log in trend, by location group and state	Portal Events
Successful user login transactions by device type	Log in trend, by device type	Portal Events

Previous Report Name	New Report Name	Group
Successful user login transactions by organization ES: Inicio de sesión de usuario exitoso por organization	Log in trend, by organization	Portal Events
Successful user login transactions by page ES: Inicio de sesión de usuario exitoso por página	Log in trend, by page	Portal Events
Successful user login transactions by service ES: Inicio sesión de usuario exitoso por servicio	Log in trend, by service	Portal Events
Successful user login transactions by service and page ES: Inicio de sesión de usuario exitoso por servicio y página	Log in trend, by service and page	Portal Events
Successful user login transactions by service, page and location ES: Inicio de sesión de usuario exitoso por servicio, página y localidad	Log in trend, by service, page and location	Portal Events
Successful user login transactions by service, page and location group ES: Inicio de sesión de usuario exitoso por servicio, página y grupo de localidades	Log in trend, by service, page and location group	Portal Events
Successful user logins by OS family ES: Cantidad de inicios de sesión de usuario por familia del SO	Log in by OS family over time	Portal Events
Successful user transactions by Access Point group	Log in trend, by AP group	Portal Events
Successful user transactions by Access Point with Location	Log in trend, by AP and Location	Portal Events
Successful user transactions by Access Point with No Location	Log in with no location trend, by AP	Portal Events
Successful user transactions by Location ES: Transacciones de usuario exitosas por localidad	User transactions trend, by location	Portal Events
Successful user transactions by Location group ES: Transacciones de usuario exitosas por grupo de localidades	User transactions trend, by location group	Portal Events
Successful user transactions by organization ES: Transacciones exitosas de usuario exitosas por organization	User transactions trend, by organization	Portal Events

Previous Report Name	New Report Name	Group
Successful user transactions by organization and type ES: Transacciones exitosas de usuario por organization y tipo	User transactions trend, by organization and type	Portal Events
Successful user transactions by type	User transactions trend, by type	Portal Events
Successful user transactions by type and location ES: Transacciones de usuario exitosas por tipo y localidad	User transactions trend, by type and location	Portal Events
Successful user transactions by type and location group ES: Transacciones de usuario exitosas por tipo y grupo de localidades	User transactions trend, by type and location group	Portal Events
Successful user transactions by type and page ES: Transacciones de usuario exitosas por tipo y página	User transactions trend, by type and page	Portal Events
Successful user transactions by type and service ES: Transacciones de usuario exitosas por tipo y servicio	User transactions trend, by type and service	Portal Events
Successful user transactions by type, service and page ES: Transacciones de usuario exitosas por tipo, servicio y página	User transactions trend, by type, service and page	Portal Events
Successful user transactions by type, service, page and location ES: Transacciones de usuario exitosas por tipo, servicio, página y localidad	User transactions trend, by type, service, page and location	Portal Events
Successful user transactions by type, service, page and location group ES: Transacciones de usuario exitosas por tipo, servicio, página y grupo de localidades	User transactions trend, by type, service, page and location group	Portal Events
Top users with connections ES: Usuario Top con conexiones	Top-ranked users Log in over time	Portal Events
User transactions by OS family ES: Transacciones de usuario por familia de SO	User OS family over time	Portal Events
User transactions by browser family ES: Transacciones de usuario por familia del navegador	User browser family over time	Portal Events
User transactions by device brand ES: Transacciones de usuario por marca del dispositivo	User device brand over time	Portal Events

Previous Report Name	New Report Name	Group
User transactions by device brand and location	User device brand by location over time	Portal Events
User transactions by service ES: Transacciones de usuario por service	User transactions trend, by service	Portal Events
User transactions by status ES: Transacciones de usuario por estado	User transactions trend, by status	Portal Events
User transactions by type and user's age ES: Transacciones de usuario por tipo y edad del usuario	User transactions by type and age over time	Portal Events
User transactions by type and user's age (from birthday) ES: Transacciones por tipo y edad del usuario (fecha de cumpleaños)	User transactions by type and age (from birthday) over time	Portal Events
User transactions by type and user's age range ES: Transacciones de usuario por tipo y rango de edad del usuario	User transactions by type and age range over time	Portal Events
User transactions by type and user's country ES: Transacciones de usuario por tipo y país del usuario	User transactions by type and country over time	Portal Events
User transactions by type and user's country and state ES: Transacciones de usuario por tipo, país y estado del usuario	User transactions by type, country and state over time	Portal Events
User transactions by type and user's gender ES: Transacciones de usuario por tipo y género del usuario	User transactions by type and gender over time	Portal Events
User transactions by type and user's telephone country ES: Transacciones de usuario por tipo y país del teléfono del usuario	User transactions by type and phone country code over time	Portal Events
User transactions by type, service, page and status ES: Transacciones de usuario por tipo, servicio, página y estado	User trend, by type, service, page and status	Portal Events
Heatmap - Successful user transactions by Access Point	Total successful user transactions by Access Point	Portal Events
Heatmap - Successful user transactions by Location	Total successful user transactions by Location	Portal Events

HOTSPOTS Reports

Geographic and location-based Access Point reports are categorized under **Hotspot**.

Previous Report Name	New Report Name	Group
Access Points by country and state	AP by country and state over time	Hotspot
Access Points by country and city	AP by country and city over time	Hotspot
Access Points by country and municipality	AP by country and municipality over time	Hotspot
Access Points by country and region	AP by country and region over time	Hotspot
Locations by country and state	AP locations by country and state over time	Hotspot
Locations by country and city	AP locations by country and city over time	Hotspot
Locations by country and municipality	AP locations by country and municipality over time	Hotspot
Locations by country and region	AP locations by country and region over time	Hotspot

AAA SERVICES Reports

Authentication, Authorization, and Accounting reports are split into **Authentication** and **Accounting** groups.

Previous Report Name	New Report Name	Group
AAA Access Point MAC distribution by organization (Accounting table)	User activity, by organization over time	Accounting
AAA Access Point MAC distribution by organization and type	User requests, by accept/reject over time	Authentication
AAA accounting sessions	Sessions trend	Accounting
AAA accounting sessions by Access Point	Sessions trend, by AP	Accounting
AAA accounting sessions by Location	Sessions trend, by location	Accounting
AAA accounting sessions by NAS Client	Sessions trend, by NAS client	Accounting
AAA accounting sessions by Realm	Sessions trend, by realm	Accounting

Previous Report Name	New Report Name	Group
AAA accounting sessions by organization	Sessions trend, by organization	Accounting
AAA accounting traffic per Location and Organization (GBytes)	Bandwidth by location and organization over time, GBytes	Accounting
AAA accounting traffic per location (GBytes)	Bandwidth by location over time, GBytes	Accounting
AAA accounting traffic per user (GBytes) ES: Trafico (accounting AAA) de por usuario (Gbytes)	Bandwidth detail by users over time, GBytes	Accounting
AAA active Access Point MAC addresses (Accounting table)	Sessions trend, by AP address	Accounting
AAA active Access Point MAC addresses per NAS client (Accounting table)	Sessions trend, by AP address and NAS client	Accounting
AAA active Access Point MAC addresses per Organization (Accounting table)	Sessions trend, by AP address and organization	Accounting
AAA active Access Point MAC addresses per organization	Accepted Sessions trend, by AP address and organization	Authentication
AAA active sessions	Active sessions trend	Accounting
AAA active sessions per NAS Client ES: Número de sesiones AAA activas por NAS Client	Active sessions trend, by NAS client	Accounting
AAA active sessions per Organization	Active sessions trend, by organization	Accounting
AAA active sessions per Realm ES: Número de sesiones AAA activas por realm	Active sessions trend, by realm	Accounting
