

Reports Page Reference

The screenshot shows the GATE admin portal interface. The left sidebar contains navigation menus for DASHBOARDS, USERS, Transactions, Reports, Heatmaps, Active sessions, IP addresses, MAC addresses, User agents, HTTP referers, OTP, and Permissions. The main content area displays a list of reports with the following columns: Title, Type, Default visualization, ID, Description, Organization, and Group. The reports listed are:

Title	Type	Default visualization	ID	Description	Organization	Group
Active Access Point MAC addresses	system	Line	589	Active AP address trend	-	Portal events
Active Access Point MAC addresses from succesful login transact	system	Line	668	AP address trend with Log in	-	Portal events
Active Access Point MAC addresses per Organization	system	Line	621	Active AP address trend, by organization	-	Portal events
Active Access Point MAC addresses without matching Access Point	system	Line	495	Active AP address trend without AP	-	Portal events
Detailed user login transactions report	system	Table	617	User Log in detail over time	-	Portal events
Detailed user transactions report	system	Table	652	User transactions detail over time	-	Portal events

The Reports page in GATE provides a comprehensive view of all available reports with powerful search, filtering, and management capabilities. This page serves as your central hub for accessing both system reports and custom reports.

Report List Columns

The reports list displays the following information for each report:

Column	Description
Title	The report name. See detailed reference for naming conventions
Type	Indicates whether the report is a system report or custom report
Default visualization	The default chart type used when displaying the report: Table, Line, Bar, Pie, or Heatmap
ID	Unique report identifier
Description	Brief description of the report's purpose and content. See detailed reference
Organization	The organization associated with the report
Group	Report category grouping. See detailed reference

Available Actions

Search and Navigation

- **Search** - Find reports by Title, Description, Group, or ID. You can search using partial text matches or by a single word included in any of these fields
- **Refresh** - Update the current list to display the latest reports
- **Filters** - Narrow down the report list using multiple criteria:
 - Group
 - Report type (system or custom)
 - Default visualization type
 - Organization

Report Management

- **Add new custom report** - Create a new custom report from scratch
- **Edit** - Modify an existing custom report (only available for custom reports)
- **Delete selected custom report** - Remove a custom report by selecting it using the checkbox on the left side of the row

“ **Note:** System reports cannot be edited or deleted, only custom reports can be modified or removed.
